About us

Water Feature

Conscape Solutions is one of leading full-service providers individual and corporate clients. We have wealth experience in delivering quality services to our clients.

We take great pride in our strong roots and our history of success. Having developed a strong reputation for excellence we continue to grow as an organization because of our focus on team work, quality and customer satisfaction.

We have highly skilled experts who are committed in providing innovative services, as well as focused in maintaining sustainable business.

Company Vision

Our vision is focused on achieving customer satisfaction through enhancement of beautiful and habitable environment.

Company Mission

Our mission statement is to be exceptional service provider that creates and enhances investment at a fair price and value.

Services

Lawn garden with garden structure

1. Landscape designs and Installation

- Landscape design and implementation
- Landscaping consultancy
- Garden Renovation
- Kitchen Garden

2. Outdoor designs and Structures

- Water features e.g swimming pool, waterfall
- Pergola
- Garden arch
- Outdoor kitchen
- Driveways and walkways
- Fire features
- Retaining walls
- Gazebo
- Garden ornaments
- Zen Garden
- Rock garden
- Garden chairs

Services

Water Feature

3. Maintenance services and outdoor cleaning

- Garden Maintenance
- Swimming pool Care
- Lawn care
- Garden cleaning and Fumigation

4. Property Verification and Title deed Processing

- Title deed search and processing
- Property ownership
- Lease title
- Surveyor and mapping Services

5. Supply services

- Potted Plants
- Lighting systems
- Irrigation systems and installations
- Flower arrangement
- Grass
- Landscaping tools and equipment
- Manure
- Building materials
- General supplies

Services

6. Event planning and Magazine

- Event management
- Directory
- Guest management support and hospitality
- Exhibition booth construction
- Transport and logistics
- Organizing exhibition
- Beautification of event venue
- Branding

Zen Garden

A Zen garden is a dry landscape which encourages meditation and a sense of tranquility because of the tranquil nature of the garden. A Zen garden is a representation of the natural world. Instead of using ponds or streams as in the wild,

By
Constance Nguli

A Zen garden uses rock formations, white sand, moss and pruned trees. It can also be simply a beautiful stone arrangement in light sand, with no growing plants or water at all.

The rocks generally represent mountains and other natural objects such as islands. The sand or gravel represents water, and it can be raked or unraked depending on the effect and object of the garden.

Benefits of a Zen Garden

For those who enjoy a little eastern style in their home or property decor,

a Zen garden can be a great addition to a yard space or other part of a property. The Zen garden is a traditional Oriental space filled with sand and a collection of rocks. It's not like a conventional western garden in that it does not necessarily include plants. The Zen garden is a meditative space. Here are some of the benefits of including a Zen garden in the overall design for your property.

1. Utilizes Unused Space
If you have a space, either on the ground or on part of a building, sitting vacant, a Zen garden is an easy way to add functionality and pack more attraction into your home. All you need to do is make sure that the flooring can handle the weight of the various rocks that you install.

The size of the space makes

no difference. In fact, some would argue that the best Zen gardens are composed in small spaces, in the nooks and crannies of a building or property, rather than in grand central spaces.

2. Maintenance for a Zen Garden

A Zen garden takes very little maintenance. However, part of its use is something that might seem like maintenance to some people. Traditionally, users spend time in a Zen garden raking the sand into different patterns that mimic the water in an ocean or sea. Whether you subscribe to this practice or not, a Zen garden does not require specific daily maintenance, as do flower beds and other installations. It's easy gardening-even if you don't have a green thumb, your Zen garden can still be a masterpiece.
